

ADAPTER FOR DUCT REPAIR

NEW PRODUCT SHOWCASE

EPR Kit Adapters make Duct repairs quick and easy!

New Adapters for our EPR Conduit Repair Kits now allow contractors to repair a broken section of DB-II duct while leaving the cables inside. Repairs can be completed quickly and effectively, reducing end-user downtime and complaints, saving contractors time, labour and money.

The Adapters are pre-cut allowing it to open around existing cabling and are then solvent cemented onto the outside diameter of the broken duct. Using standard PVC solvent cement, an EPR Kit is then easily assembled and connected to the Adapters, restoring the duct to its original form.

See reverse page for more information about our EPR Kits.

FEATURES AND BENEFITS:

- EPR Kits are now compatible with DB-II or Schedule 40
- Minimal Customer down-time
- Uses solvent cement rather than mechanical straps

Size (inches)	Part Number	Product Code	UPC	Standard Pkg
2	EPRA35	077852	622454380233	80
3	EPRA45	077853	622454380240	20
4	EPRA55	077854	622454380257	20
5	EPRA60	077855	622454380264	4
6	EPRA65	077856	622454380271	4

* Item sold separately from the EPR Kit.

EPR for Conduit Repair

These clever and innovative conduit repair kits from IPEX are the first total repair systems for broken and damaged PVC conduit. They offer fast and easy repairs for damaged conduit caused by actions such as earth excavation, horizontal and core drilling.

With unique interlocking joints, the EPR Kits' two half shell, bell-by-bell pieces simply close around the installed wire and cable. Using standard PVC solvent cement, EPR Kits are quickly and easily assembled and connected, restoring the conduit to its original form. And, unlike other conduit repair systems, EPR Kits are capable of repairing various lengths and types of pipe quickly and accurately, saving you time and money.

EPR Kits, available in 1-1/4" - 6" sizes, are manufactured of high-impact and non-conductive PVC, ensuring a life long quality repair for your system. In addition, every item is hand inspected for defects prior to individual package assembly.

BENEFITS:

- **Restores structural integrity of conduit system**
- **Cost savings with fast and easy installation**
- **Compatibility – inside diameter of bell equals outside diameter of pipe to create a bell and spigot connection**

easy as 1-2-3
