

MJ Grey™ Mechanical Couplings

MJ Grey™ Mechanical Couplings offer installers an alternative joining method for System 15® and System XFR®. They are advantageous in cold weather as an option to solvent welding, repairs or tie-ins and for limited joint deflection in difficult installation areas. The MJ Grey Mechanical Couplings have the familiar grey rubber lining to indicate their use for IPEX System 15 or System XFR only.

System 15 and System XFR are regarded as the premium nonmetallic DWV systems used in Canada. Together with this offering of MJ Grey Mechanical Couplings, IPEX remains the industry leader with the most complete offering of pipe, fittings and couplings.

Available through all stocking System 15 and System XFR distributors.

Nominal Size Inches	# of Clamps	DWV to DWV Product Code	CI to DWV Product Code
1-1/2	4	094056	094061
2	4	094057	094062
3	4	094058	094063
4	4	094059	094064
6	6	094060	094065
8	6	094053	—
10	6	094054	—
12	6	094055	—
14	8	094086	—
16	8	094087	—
18	8	094088	—

Features and Benefits:

- Range of sizes; 1-1/2" - 18" diameter
- Listed to ULC 102.2 for Flame Spread Rating / Smoke Development Classification limits of 25/50
- Designed specifically for System 15 and System XFR (DWV to DWV) and Cast Iron to DWV pipe to pipe connections
- Stainless steel band with a grey rubber gasket
- Spigot Fittings for sizes 4" +
- MJ Grey 80 in.lbs torque tool is available from IPEX

Standards:

CSA B602
CAN/ULC S102.2
